

A New Tourism Diva in Town

On 15 March, Kyiv's restless souls got some more relief with the opening of a travel agency on Ivana Franka, 42. Diva travel agency offers routes to destinations all over the world, focusing on popular places such as France, Austria and Greece. Reflecting this emphasis, the company's interior design is made in the style of the Greek Island of Santorini. The original design idea came from Olha Kruhlyak, the architect behind the most popular restaurants of the '21 Century Group'. Elements from different countries on the shelves (seashells,

pebbles and even a giant nut) allow customers to feel like they are already on holiday, even before they have reached the counter. "This is like a dream come true," commented Viktoria Chekalkina, the director. "I am confident in the service we are offering." Her husband, the director of Kievskiye Vedomosti radio station added, "each person should do what they want to do", describing the agency as Viktoria's self-realisation. If you are already dreaming of an extra-ordinary vacation, call Diva agency on 490-5290 for further details.
